PRATHI VIKHYAT

Berhampur, Odisha | +91-7855880663 | vikkiprathi03@gmail.com

IT graduate with hands-on experience in Python, SQL, artificial intelligence, and deep learning projects. Knowledge of machine learning, computer vision, and database management, with practical exposure to developing technology-driven solutions. Strong analytical thinking, problem-solving, and technical learning abilities, seeking to apply data science concepts to real-world challenges.

EDUCATION

- 2026 | Bachelor of Technology in Information Technology | Vellore Institute of Technology, Vellore | CGPA-7.88
- 2019-2021 | Andhra Pradesh Board Secondary Education | FIITJEE Junior College, Visakhapatnam | Percentage – 67
- 2019 | Board of Secondary Education | Sri Prakash Vidyaniketan, Visakhapatnam | Percentage – 81.5

SKILLS

- Programming Languages: Python, Java
- Web Technologies: HTML & CSS
- Database: SQL, MySQL
- Analytical Thinking & Problem-Solving
- AI/ML Libraries: TensorFlow, Keras
- Computer Vision: OpenCV, Dlib
- Communication Protocols: MQTT
- Leadership, Teamwork & Communication

PROJECTS

1. **Real-Time Driver Drowsiness Detection | Team Project | VIT**

   Python | OpenCv | Dlib | Raspberry pi

   - Developed a real-time driver monitoring system using computer vision techniques to detect signs of drowsiness.
   - Implemented facial landmark detection and Eye Aspect Ratio (EAR) to identify eye closure.
   - Integrated alert mechanisms to notify drivers when drowsiness was detected.

2. **Pneumonia Detection Using Deep Learning | Individual Project | VIT**

   Python | TensorFlow | Keras | CNN

   - Developed an image classification system to identify potential pneumonia cases using chest X-ray images.
   - Applied image pre-processing techniques to prepare datasets for model training.
   - Implemented a Convolutional Neural Network (CNN) for image classification.

3. **Assistance on Highway | Individual Project | VIT**

   Android Studio

   - Developed an application driven solution to support highway users with assistance services.
   - Focused on improving accessibility and coordination of highway assistance through system-based functionality.

4. **Inventory Management System | Individual Project | VIT**

   HTML | CSS | Javascript | SQL | Bootstrap

   - Developed an inventory management solution to maintain product records and monitor stock levels.
   - Implemented inventory record management and data retrieval functionality.
   - Organized product information to support efficient stock monitoring and record maintenance.

5. **Distributed Tokem Management System | Individual Project | VIT**
   NgRok | Python | Flask | Json | Postman
   - Developed a system to generate, allocate, and manage tokens across multiple service points.
   - Implemented token status tracking to improve queue management and workflow efficiency.
   - Designed data management functionality for maintaining and retrieving token records.

EXPERIENCE

July 2023 – October 2023

Engagement Specialist | Entrecon Global | Tel- Aviv, Israel

Coordinated entrepreneurial workshops and technology forums, stakeholder communication, event logistics, and team collaboration to ensure smooth execution.

January 2020 – 2021

Head of Operations | Private Company | Odisha, India

Led a 20-member team, overseeing logistics, financial operations, and reporting to ensure efficient coordination and smooth business operations.

July 2022 – August 2023

Event Coordinator | Entrepreneurship Cell | VIT, Vellore

Co-led E-Summit ’23, engaging 4,500+ participants while overseeing event logistics, guest travel, and team coordination.

CERTIFICATIONS & BADGES

- Microsoft Certified: Azure AI Fundamentals (AI-900)
- Qualcomm Academy: AI Upskilling – Technical Foundation & Hands on development from model to app
- Google Cloud Skill Badge: Build Real-World AI Applications with Gemini and Imagen
